

Case Study

Project Name: Property Redress Scheme

Website: www.theprs.co.uk

Team Lead: Pankaj Tahiliani

Developed by: Rajendra Sharma and Team

Created by: Nisha Panjwani

Dotsquares

Property Redress Scheme (www.theprs.co.uk)

The Client

The client is UK Government, addressing complains against Property Agents and other property professionals done by their customers.

Business Need

The Client wanted us to make the complete Agent Registration and complain process online. The system required to be User friendly and easy to handle by Agents/Professionals and general users (who want to complain). It is necessary for Property agents and professionals to register themselves with Property Redress Scheme through the PRS site to get authorized government certificate.

How Dotsquares helped:

Dotsquares is experienced Website, Application and Software Development Company. We are already engaged with many of the clients for services requirement in different domains.

The entire project was implemented with agile methodology to ensure that client had enough time for testing thereby reducing risks. In-house testing tools and quality checks were used to develop bug free system and to give the client enough confidence on the system capabilities.

Our Solution

- Website is developed complying all the requirement by client
- User Friendly and Optimized Design for easy browsing by visitor
- Content Optimization to provide visitors with quick information they are looking for
- All the required functionalities are developed with understandable flow that helps the user to perform the required action

Technical features of the solution include:

- **Development Technology:** .Net, MVC Architecture, C#, JQuery, Grid MVC
- **Design Platform:** Bootstrap
- **Web Servers:** IIS
- **Database:** MsSQL
- **Payment Gateway:** SagePay
- Window Services
